

Ecology in Peru: July 12 – Aug 14, 2016

Join us in the Cordillera Blanca mountain range of Peru for a summer of learning and adventure. This part of the Andes has over 30 mountains that are taller than 20,000 feet and it is one of the most beautiful places on Earth. We will spend 5 weeks backpacking, camping, learning, and helping with research projects from **July 12-Aug. 14, 2016**. We will be camping in the National Park (with pack animals and local cooks), visiting ruins, and exploring glaciers. Join us for a grand adventure!

- **Several credit options available**
- **ESCI 325 Intro Ecology (3) or**
- **ESCI 498D International Study (10 credits – satisfies the ESCI major requirement) or**
- **BIO395 (3)/BIO494 (5) – Bio Research**

Participation – Financial Aid Available

Costs: \$5075 – includes tuition for ten credits (\$2500) but does not include airfare ~\$1000.

For more information, please contact Dr. John All (john.all@wwu.edu) or Dr. Robin Kodner (robin.kodner@wwu.edu) for more information.
